RESEARCH INTEREST

Host-microbiome interactions, Bioinformatics, Animal Genomics, Precision livestock research

EDUCATION

M.Sc. in Dairy Science

Christian-Albrechts-Universität zu Kiel, Germany | 2023 – Present (Expected Graduation: February 2027)

- Provisional GPA: 1.7 / 1.0 (German Scale, Equivalent to "Very Good/Excellent", Perfect 1.0 Grades in Dairy Cattle Breeding & Biometrical Planning and Inference)
- Erasmus+ exchange semester at JUNIA ISA (Graduate School of Agriculture and Bioengineering), Lille, France (Jan–May 2025)

Master's Thesis (ongoing): *Towards Reliable Bovine Milk Microbiome Analysis for Assessing Mastitis Risk through Comparative Evaluation of Two DNA Extraction Methods*

- Bioinformatic processing of 16S rRNA sequencing data using R
- Microbial profiling and diversity analysis through MicrobiomeAnalyst 2.0.
- Supervisor: Dr. Christina Hölzel

-

M.Sc. in Animal Science (Biometry and Genetics) (Partially Completed)

Eskisehir Osmangazi University, Türkiye | 2020 – 2022

- Winner of Türkiye Government Scholarship (YTB), 2019–2022
- Completed 120 ECTS credits with a GPA of 4.0/4.0
- Thesis (incomplete): "Identification of Jersey Haplotype 1 (JH1) Genetic Defect in Jersey Cattle"
- Extensive laboratory work in molecular genetics; participated in several scientific conferences and co-authored multiple publications

B.Sc. in Animal Husbandry

Bangladesh Agricultural University, Mymensingh | 2014 – 2018

- CGPA: 3.728/4.0 (Ranked 7th out of 152 students)
- Comprehensive theoretical and hands-on training in dairy, poultry, animal nutrition, and breeding across five departments and their respective experimental farms

TECHNICAL & STATISTICAL SKILLS

- 16S rRNA data processing, Microbial Diversity Analysis (core microbiome analysis, alpha and beta diversity profiling)
- R for Agricultural Data Systems (ANOVA, Bonferroni post-hoc modeling)
- DNA Isolation, Polymerase Chain Reaction (PCR), Restriction Fragment Length Polymorphism (RFLP-PCR), Gel Electrophoresis

PROJECT & PUBLICATIONS

Research Project (Feb–May 2025)

Variation in Mineral Content of Forages in the USA

- Sponsor: ANIMINE (France)
- Large-scale cross-comparative data modeling using R to evaluate US regional forage variations.
- Insights into precision nutrition for dairy mineral supplementation

Published Book Chapters

- **Mohshina, H., & Gedik, Y. (2022).** Haplotype Sourced Recessive Defects Affecting Fertility in Dairy Cattle. In *Resilient Agriculture with the Help of Crop Diversification* (pp. 143-180). Iksad Publications.
- **Mohshina, H., & Gedik, Y. (2021).** Effects of Different Co-Culture on Bovine In Vitro Embryo Production: An Overview. In *Highly Interconnected & Endless Puzzle: Agriculture* (pp. 139-156). Iksad Publications.

Conference Presentations

- **Mohshina, H., & Gedik, Y. (2022).** Association of CAPN1 Gene with Growth and Meat Characteristics in the Farm Animals. In *EJONS 14th International Conference on Mathematic, Engineering and Natural Sciences* (Abstract and Oral presentation). July 6-7, Paris, France. https://www.ejonscongress.org/_files/ugd/614b1f_5cfa0c460ce44230bdf17f610474ce1.pdf
- **Mohshina, H., & Gedik, Y. (2022).** Associations of CAST Gene Polymorphisms with Growth and Meat Quality Traits in Small Ruminants. In *III. International Applied Statistics Conference (UYIK-2022)* (Abstract and Oral presentation). 22-24 June 2022, Skopje, N. Macedonia. <https://www.uyik.org/uploads/uyik-2022-proceeding-book.pdf>
- **Mohshina, H., & Gedik, Y. (2021).** Lethal Genetic Defects and Poor Fertility in Holstein Friesian Cattle. In *II. International Congress of the Turkish Journal of Agriculture - Food Science and Technology-2021* (Oral presentation and Full Text). 25-29 October 2021, Gazimagusa, Cyprus. <http://books.turkishpublishing.com/index.php/TURSTEP/catalog/book/1>
- **Mohshina, H., & Gedik, Y. (2021).** Genetic Defects Associated with Reproduction in Dairy Cattle. In *II. International Applied Statistics Conference (UYIK-2021)* (Abstract and Oral presentation). 29 June-02 July 2021, Tokat, Türkiye. <https://www.uyik.org/uploads/proceedings-book-uyik-2021.pdf>
- **Mohshina, H., & Gedik, Y. (2021).** Bovine Embryo Co-culture. In *Baku Scientific Research Conference* (Abstract and Oral presentation). 28-30 April 2021, Baku, Azerbaijan. https://www.academia.edu/49095647/2nd_INTERNATIONAL_BAKU_CONFERENCE_ON_SCIEN_TIFIC_RESEARCH

PROFESSIONAL EXPERIENCE

Intern – Renata Agro Industries Ltd. & American Dairy Ltd. (ADL) | May – Oct 2018

- Six-month internship in large-scale commercial poultry and dairy production systems
- Acquired hands-on experience in livestock management, feeding strategies, and reproductive health monitoring.
- Submitted a report and presentation, and scored 4 in overall evaluation
